Dear Messrs. Kruger and Peters:

Re: Completion of inspection of hazardous waste accumulation areas

On April 8, 2003, the Washington State Department of Ecology conducted an inspection of hazardous waste accumulation areas at selected facilities throughout the Hanford Site. Facilities inspected included the following:

- 2025E waste accumulation areas operated by Fluor Hanford Incorporated (FH).
- 331 Building and 3720 Building Laboratories operated by Pacific Northwest National Laboratories (PNNL).
- 100N waste accumulation areas operated by Bechtel Hanford Incorporated (BHI).
- 209E waste accumulation area operated by CH2M Hill Hanford Group (CHG).
- Waste Treatment Plant waste accumulation areas operated by Bechtel National Incorporated (BNI).

No violations were revealed at the PNNL facilities inspected.

Messrs. Kruger and Peters
